

Quād

ABOUT US

As the global manufacturing landscape evolves with Industry 4.0, AI, and Robotics, companies must adopt agile, precise, and efficient ways of working to meet dynamic market demands. Today's solutions need to be advanced yet cost-effective, futuristic yet practical, and above all, tailored to provide a competitive edge focused on both process and product.

Quad acts as a strategic growth partner for businesses seeking to expand or strengthen their presence in high-potential markets. With a comprehensive suite of offerings in **Robotic Automation, Technology, Human Capital Due Diligence, and Project Management Consulting**, we help global suppliers navigate operational complexities and deliver measurable impact across processes, people and technology.

From Concept to Completion

- PROJECT MANAGEMENT CONSULTING & JV FACILITATION
- TECHNICAL & HUMAN CAPITAL DUE DILIGENCE
- CUSTOMIZED AUTOMATION SOLUTIONS
- ORGANIZATION DEVELOPMENT & CAPABILITY BUILDING

Quad delivers cutting-edge manufacturing and process solutions that drive higher productivity, superior quality and stronger employee engagement. By empowering frontline teams to break down entrenched barriers, With customised robotics, smart automation and advanced machine designs, Quad helps you tackle modern manufacturing challenges—delivering high impact innovation with low spends.

01

Engage

We begin by listening and understanding, engaging with your teams on the shopfloor and in the boardroom to map real-world challenges and aspirations.

04

Empower

Finally, we equip your people and processes with tools, training, and insights to thrive independently—building a self-sustaining, future-ready manufacturing ecosystem.

02

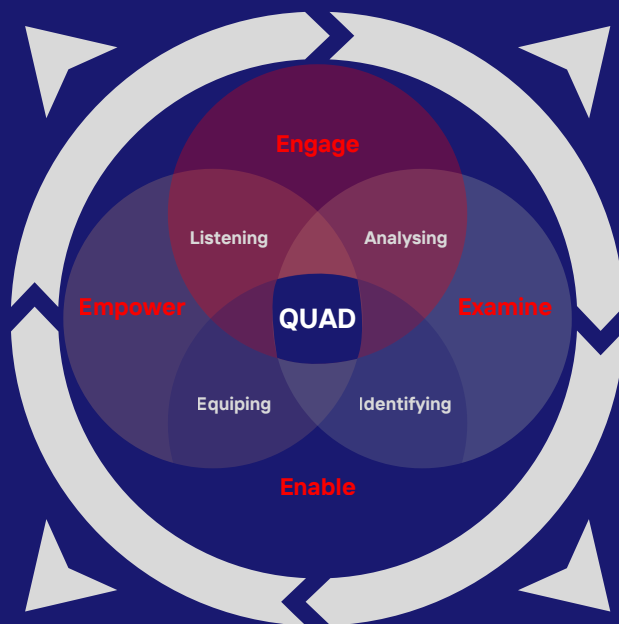

Examine

Like skilled surveyors, we analyze your current terrain—auditing processes, assessing equipment, and identifying gaps across operations, systems and strategy.

03

Enable

With blueprints in hand, we design and implement practical automation solutions—from robotics to packaging systems—turning complexity into structured, scalable systems.

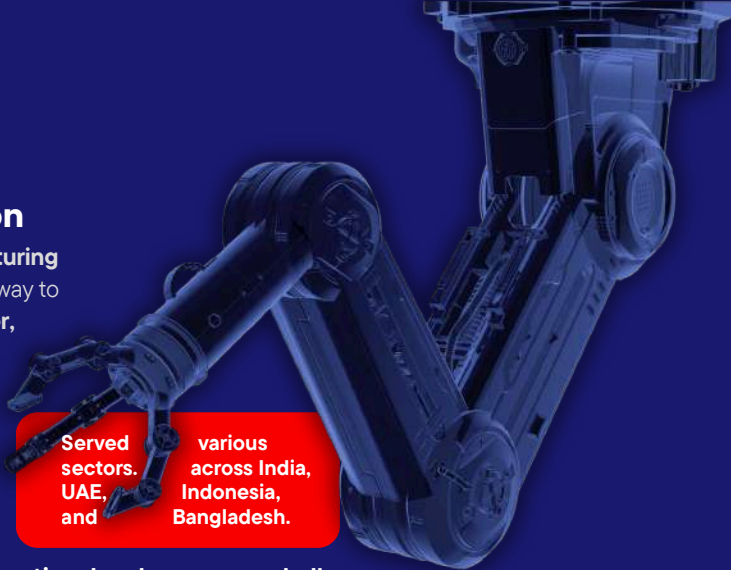

www.thankquad.com

Welcome to the World of Growth Automation

Quad Enterprises has been founded to address a simple truth: **manufacturing is evolving faster than ever**. Traditional labor-driven models are giving way to automation, robotics, and Industry 4.0 technologies that demand **smarter, more flexible solutions**.

Delivered USFDA-compliant automation & due diligence projects worth \$70 Million across FMCG & Oil & Gas.

Successfully deployed AI-powered robotics, OEE consulting, and smart automation for high-volume industries.

Served various sectors across India, UAE, and Indonesia, Bangladesh.

Trusted partner in helping global brands adapt to regulatory, operational and consumer challenges.

By deploying low-cost AI-powered robotics, smart automation, OEE consulting, and forward-thinking project management, combined with organization development & capability building and human capital auditing, Quad enhances operational efficiency, reduces risk, and drives substantial cost savings, empowering partners to scale with confidence and agility.

Through customized robotics, intelligent machinery, and integrated systems, Quad improves productivity, quality, and employee engagement while fostering collaborative networks with trusted partners. With expertise across FMCG, Pharmaceuticals, Food Processing, Tobacco, Electronics, and Lighting, we turn complex manufacturing challenges into scalable, high-impact growth opportunities.

Customized Automation & Robotics

From robotic assembly to end-of-line automation, we deliver cost-smart, scalable, and industry-specific automation systems that elevate productivity and reduce risk.

Our core capabilities include:

- Robotic Assembly Systems
- CNC Machines
- AGVs (Automated Guided Vehicles)
- AS/RS Systems
- Sensor-enabled Quality Control
- End-of-Line Automation (Palletizing, Depalletizing)

Technical & Human Capital Due Diligence

Uncover hidden risks and opportunities—evaluating not just technology, but also people, governance, and long-term operational strength.

We provide insights with

- Financial Audits
- Organizational & HR Checks
- Operational Audits
- Legal & Background Reviews
- Environmental & Compliance Reviews

Project Management Consulting & JV Facilitation

From greenfield site development to complex industrial execution, we ensure on-time, on-budget delivery with lean governance and innovation-driven execution.

We deliver:

- PM Services
- JV Facilitation
- Value Engineering
- Manufacturing 4.0

Organizational Development & Capability Building

Building agile structures, governance frameworks, and leadership capability to ensure technology investments are supported by strong organizational health.

Our services include:

- Change Management
- Enterprise Health Assessment
- Structure & Role Architecture
- Decision Frameworks & Governance Models

WHY COLLABORATE WITH US?

Market Entry Partner

We help you scale into India's fast-growing FMCG, Pharma, Electronics & Food sectors.

Collaborative Market Intelligence

Understand local market trends, compliances and consumer needs through Quad's intelligence.

Trusted Network

Connect with pre-vetted distributors, suppliers and collaborators.

End-to-End Facilitation

From sourcing to distribution, we provide practical support to scale operations and optimize ROI.

Growth Catalyst

Together, we align your manufacturing strengths with India's massive consumer demand and UAE's trade access.

We Transform Industries

FMCG

High-speed automation, packaging lines, quality inspection.

Pharma & Healthcare

Sterile automation, cleanroom robotics, serialization & track & trace.

Food

Hygienic automation, pouching, tray & sleeve packaging, MAP systems.

Electronics

Smartphone assembly, PCB handling, lighting automation.

Tobacco

Heat-not-burn processing, pouching, packaging, track & trace solutions.
